

BRESEIGHT AUSTRALIA

CAREER OPPORTUNITY

APPRENTICE Mechanical Engineer (Trade)

Applications are being invited for positions as Apprentice Mechanical Engineer (Trade), based in Ingleburn. The successful applicants will be required to undertake appropriate TAFE studies (Certificate III in Engineering/Mechanical Trade).

Additionally, apprentices will be introduced to advanced manufacturing principles and applications in the Company's Product Design Lab. Emphasis will be placed on learning problem solving skills as you conceptualise, design, test and build new products.

Breseight takes pride in the high quality of work undertaken by its trades and specialist staff and wishes to appoint individuals who also seek to produce work of an excellent standard. Preference will be given to applicants who can demonstrate academic, technical and problem solving skills appropriate to both the apprenticeship and the Company's long-term objective, which is to integrate vertically into product design, development and direct part manufacture.

The starting rate of pay will be as per the award rate and may vary depending on age and educational background. As well successful applicants will receive a tools allowance.

An information and application package may be obtained by calling Mel McNair on (02) 9933 3640 during normal business hours.
